

Prof. Dr. Subhas Chandra Mukhopadhyay

Dr. Subhas Chandra Mukhopadhyay currently is working as a Professor of Mechanical/Electronics Engineering with the School of Engineering, Macquarie University, NSW 2109, Australia. His fields of interest include Sensors and Sensing Technology, Instrumentation, Wireless sensor networks, Internet of Things, Mechatronics and Robotics etc. He has authored/co-authored over 400 papers in different international journals, conferences and book chapter. He has edited fifteen conference proceedings. He has also edited seventeen special issues of international journals as guest editor and thirty books. He is a FIEEE (USA), a FIET (UK) and a FIETE (India). He is a Topical Editor of IEEE Sensors journal, an Associate Editor of IEEE Transactions on Instrumentation and Measurements. He is the Founding Chair of the IEEE Instrumentation and Measurement Society New South Wales, Australia Chapter. He is a Distinguished Lecturer of the IEEE Sensors Council 2017-2019.
